Donation Boosts Local Youth Club Renovation

De Young Properties has always believed in supporting area youth – the very future of our community and world. Recently we had the opportunity to put that belief into action, making a donation of nearly \$30,000 to the Boys & Girls Clubs of Fresno County.

Part of the donation was made through the Rotary Centennial Project to help in the recently-completed renovation of the West Fresno Boys & Girls Club facility. Specifically, our gift was used to construct an exercise/dance room with hardwood floors and wall-to-wall mirrors, which will enable the Boys & Girls Club to instruct local youth in dance and karate.

“While De Young Properties was happy to make this donation, we were both honored and humbled when the West Fresno Boys & Girls Club named this new addition the ‘De Young Properties Room’,” said Jerry De Young, President of De Young Properties. “We know it will be put to good use by the club’s leaders, helping today’s young people develop skills, confidence and leadership for a better tomorrow.”
