

## **De Young Properties “Pampers” Needy Children**

Loads of Luvs, plenty of Pampers and hundreds of Huggies were collected as De Young Properties helped sponsor the Saint Agnes Holy Cross Center for Women Diaper Drive.

In addition to opening our Brentwood Model Home Center as a diaper drop-off location during the 30-day drive, De Young Properties donated the equivalent of 14,285 diapers to the Center, which provides diapers to over 2,100 impoverished children in our area.

"The generosity and active participation of the people at De Young Properties is a great boost to our efforts at the Holy Cross Center for Women in assisting those less fortunate," said Sister Mary Clennon, Director of the Center. "Not only does this drive enable us to provide diapers for needy children, but also to educate the parent in child care and basic health care. We are most grateful."

Since 1984, Saint Agnes Holy Cross Center for Women has tried to meet the growing needs of the area's homeless and underserved women and their children by providing a safe, peaceful outlet in downtown Fresno. In recent years, the demand for diapers has exceeded the Center's supply.

De Young Properties is both honored and humbled to have played a role in assisting this worthwhile organization which educates parents and provides necessities for children throughout our community.
